Easy Cucumber Avocado Roll Ups

Recipe makes 1 vegetable serving

Ingredients:

- ½ avocado
- 1 English cucumber, about 1 cup
- 1-2 tbsp fresh basil
- 1 tbsp lime juice
- ½ clove garlic, minces
- Pink Himalayan Sea salt and pepper to taste
- Smoked paprika

Instructions:

- Add the avocado, basil, lime juice, garlic and salt in a processor or blender. Blend until smooth, stopping to scrape the sides as needed.
- Use a mandolin or potato peeler to cut long thin strips from the cucumber. Take a cucumber strip and spread a thin coat of the avocado mixture along the length of the cucumber. A little goes a long way! Make sure to get some avocado all the way to the end, so it will stick the roll together. Roll it up! No toothpicks needed. Do the same with the rest of your cucumber strips. Sprinkle with a little paprika and serve right away.
- Enjoy!
