SOTA's Mini Pepper Nachos

Recipe makes 8 oz of animal protein & about 2 cups of everyday vegetables

Ingredients:

- 8 mini bell peppers (1 larger mini bell pepper is about ¼ cup of vegetables)
- ½ lb. (8 oz) ground turkey (ground chicken or ground beef is fine also)
- ¼ tsp garlic powder
- ½ tsp ground cumin
- ½ Tbsp chili powder
- ¼ cups *Salsa-Holics* salsa (approved salsa found at Central Market and HEB, it's amazing)
- Sea salt, to taste
- 1 Tbsp fresh cilantro, chopped
- Avocado oil spray

Directions:

- Preheat the oven to 400°F.
- Slice the peppers lengthwise, then remove the stem and seeds. Place on a baking sheet that has been lined with foil or parchment paper for easy clean up. Spray with the avocado oil. (You can also rub with avocado oil if you do not have the spray.)
- Cook the peppers in the oven for 12 minutes.
- In a large pan over medium heat, add the ground turkey and cook while breaking it up into small pieces.
- Add the garlic powder, cumin, chili powder, salsa and a pinch of salt. Continue cooking till cooked through.
- Allow to cool slightly while waiting on peppers to finish.
- Stuff the peppers with the meat mix once they come out of the oven. Garnish with fresh cilantro.
- Serve hot or at room temperature.

Pro Tip:

➔ Substitute the bell peppers for jalapeños peppers for a spicy option.
