SOTA's Citrus Glazed Salmon

Recipe makes 16 oz of animal protein

Ingredients:

- 1 lb. (16oz) fresh wild caught salmon
- 1 tsp sea salt
- 1 tsp black ground pepper
- Thinly sliced lime or lemon slices, for garnish
- 1 tsp onion powder
- Juice of 1 lemon
- Juice of 1 lime
- 1 tsp *Sweet Leaf* liquid sweet drops
- 4 Tbsp avocado oil
- 1 handful parsley leaves

Directions:

- Preheat the oven to 350°F. Pat your salmon dry. Season both sides of the salmon with the salt and pepper. Place the salmon skin side down on a cast-iron skillet or baking dish on top of just a dollop of oil to prevent it from sticking. Layer the fish with very thin slices of lime or lemon. Place the salmon in the oven, uncovered, and cook for about 15 minutes (the salmon will not be cooked through at this point).
- For the glaze, mix in a bowl the lemon and lime juice, the *Sweet Leaf* liquid sweet drops to taste, avocado oil, onion powder, parsley, salt and pepper.
- Remove the salmon from the oven. Remove the lemon or lime slices and set aside. Place the salmon on aluminum foil big enough to wrap up. Cover the salmon with the glaze, then layer the lemon and lime back on top. Wrap the foil tightly before putting it back in the oven.
- The salmon will need to cook for another 10-15 more minutes, until the internal temperature reaches 145°F. Serve the salmon with your favorite daily vegetables. Garnish with more parsley and enjoy!
