SOTA's Dry Rub Pork Ribs

Recipe makes about 16 oz (1 lb.) of animal protein

Dry Rub Ingredients:

- 1 Tbsp kosher salt (coarse ground salt)
- 1 Tbsp chili powder
- 1 Tbsp paprika
- 1 tsp garlic powder
- 1 tsp onion powder
- 1 tsp dried oregano
- 1 tsp black pepper
- ¼ tsp cayenne pepper

Ribs Ingredients:

- 2 lbs. (32 oz) pork spareribs
- 1 cup water
- ½ cup *Walden Farms* BBQ Sauce

Directions:

- Preheat the oven to 425°F.
- Mix all the dry rub ingredients together in a small bowl.
- Rub both sides of the ribs with the dry rub.
- Lay the seasoned ribs in a large cooking pan (cut the ribs in half if you need to make them fit). Add the water and cover the whole pan tightly with foil.
- Bake for 1 ½ hours until the meat is very tender. Check occasionally that the water has not evaporated away, as this can burn your ribs.
- When finished, turn the oven temp up to 500°F. Brush some of the BBQ sauce on the meat and cook for an additional 6 to 8 minutes uncovered, watching carefully so that they don't burn.
