SOTA Garlic and Herb Eggplant

Air Fryer Style

Ingredients,

- 2 medium sized eggplants
- Salt & Pepper
- 5 Tbsp avocado oil
- 3 cloves garlic, crushed
- 2 tbsp parsley, chopped
- 2 tbsp oregano, chopped

Makes 3-6 cups, depending on eggplant size

Instructions:

- Cut the eggplants into ¼ inch thick slices and generously salt each slice.
- Let rest about 15 minutes so the salt can draw out the moisture and bitterness. Wipe each of the slices with a paper towel to remove the moisture.
- Pre heat air fryer to 350˚F.
- In a large dish combine the avocado oil, garlic, parsley, oregano, salt and pepper. Place each of the eggplant slices in the dish, flipping them over to ensure both sides are covered in oil sauce. Leave the remains of the mixture in the bowl.
- Air fry for approximately 6 minutes per side until golden in color. If the eggplant becomes dry, brush a small amount of oil on them.
- When the eggplant is tender and cooked, remove the slices from the air fryer and throw back into the bowl with the seasonings and coat again.

-SOTA Mashed Eggplant recipe: add the cooked eggplant to a blender with ½ of a squeezed lemon and blend until smooth. Add the additional oil mixture if you need more liquid. This is a great vegetable to serve with any animal protein. Top with cilantro and enjoy!
